

LEARN, RIDE, CONQUER

Z50, QR50, XR50—sound familiar? Today's kids look forward to building the same memories on a CRF50F.

Engineered from DNA that comes from the whole CRF family, good times are guaranteed on this entry-level bike from the first kick. With its reliable four-stroke engine tuned to deliver smooth, easy-to-use power. Its three-speed transmission uses an automatic clutch, giving riders confidence as they learn shifting without the worry of stalling. It even has an adjustable throttle limiter and keyed ignition, so you control who rides, when they ride, and how much power the CRF50F delivers. Kickstart their riding adventures today!

49cc SOHC 4-Stroke Engine

Smooth power delivery, 49cc SOHC 4-stroke engine, which is both reliable and low maintenance.

Automatic Clutch

Without a clutch lever to master, new riders don't have to worry about stalling. That makes the CRF50F the perfect bike for learning to shift. In addition, the transmission provides three smooth gear ratios.

Adjustable Throttle Limiter

The top speed can be adjusted by turning a screw. This feature helps prevent new riders from going too fast too soon, allowing you to match the CRF50F's power to their skill level.

Strong Steel Frame

New riders are hard on their bikes, especially when they're just starting out. That's why the CRF50F uses a strong steel frame that's built to handle the bumps and dings of off-road riding.
